For Immediate Release:

Action Products announces Heather Nicholas, Director of Manufacturing

Hagerstown, MD, USA, April 9, 2015: Action Products, Inc., manufacturer of Akton® polymer for pressure relief products, promoted Heather Nicholas to Director of Manufacturing. Her position was vacated by the retirement of longtime Action employee, Gregory Deck.

Heather began her engineering career performing quality assurance, industrial and process engineering for first-tier automotive suppliers in North Carolina. Then, she spent five years with GlaxoSmithKline overseeing industrial engineering projects for their largest warehouse operations in North America. Heather joined Action in February 2007 as a Senior Industrial Engineer. “She has a common-sense approach to process improvements, internal controls and leadership skills,” says Troy McKnight, CEO of Action Products, Inc. and her direct supervisor.

As a Director of Manufacturing, Heather will be supervising over forty employees to include industrial engineers, production, maintenance and mold forming staff. She will focus her efforts on process and workflow improvements to reduce waste and improve profit margins. She is striving for a proactive team approach to improve processes and problem solving efforts. Heather is currently pursuing a Masters of Business Administration from Post University. She currently resides in North Hagerstown with her husband, Paul, and her daughter, Morgan.
