For Immediate Release:

Action Products, Inc. introduces the Angel line of O.R. table pads

Hagerstown, MD, USA, March 3, 2011: Action Products, Inc. acquired White Star Medical and with it, its renowned line of Angel O.R. table pads. Building on its success, Action has enhanced the line to address the infection control demands of the modern O.R. It will be introduced at AORN Congress in Philadelphia, March 21st. “By adding our signature no-stitch, fully-welded construction and proprietary hidden vent system to the original pressure relieving dual-density foam core and 4-way stretch fabric, we took the product to a new level.” says Mistie Witt, Action Products, Inc. President – Medical Products Group. The infection control features of this pad make it a cost effective, better than basic solution for low to moderate risk surgeries; perfect for ASCs and outpatient surgery suites. All pads are available with an upgrade to an active Silver ion fabric for maximum protection against bacterial growth.

“Now, we have a complete spectrum of pads, clinically engineered for your O.R.,” comments Janet Kaplan, Marketing Manager. The entire line of Action® support surfaces can be seen on www.4yourOR.com and at www.actionproducts.com.

About Action Products, Inc.:

Action Products, Inc. is the manufacturer of pressure management support surfaces to prevent pressure ulcers. The company pioneered the reusable, polymer gel positioning product category and is known worldwide for its quality pressure and shear relieving products. Action remains the leader in the category due to its independent clinical studies proving its effectiveness, and its continuing support of pressure ulcer prevention education.
