

Support Surfaces

O.R. Table Pads & Overlays

Action Products, Inc.
www.actionproducts.com

The Action® brand is a name you can trust for head-to-toe pressure protection, in and out of the Operating Room. We have designed a variety of support surface options to fit your facility's individual needs. You choose what balance of clinical effectiveness and cost efficiency is right for you.

Benefits you can expect from every Action® OR Table Pad:

- 4-way stretch fabric for shear reduction and immersion benefits
- Biocompatible
- PVC free
- Imaging compatible
- Silicone and Plasticizer Free
- Not made with natural rubber latex
- Meets ergonomic weight limits for hospital staff
- Easy to clean
- Waterfall construction
- Available in multiple thicknesses
- Armboard pads available
- Large selection of models

Surface Benefits

4-way Stretch Fabric

- Premium PU-coated waterproof fabric
- Enhances patient immersion
- Fungistatic
- Bacteria / Microbe resistant solution in fibers of fabric
- Use for heavy frames

Akton® Polymer

- Premium shear management
- 360° multi-directional stretch
- Enhances patient stability
- Evenly distributes heat
- Evenly distributes pressure
- Does not support bacterial growth
- Hypoallergenic

Easy To Clean

- Waterproof
- Bacteria / Microbe resistant
- Midline seams avoid pooling liquids
- Welded seams prevent ingress of fluids
- 100% no-stitch construction
- 100% no-stitch hook and loop attachment
- Proprietary hidden vent system helps to minimize cross contamination

Durable, welded midline seam and proprietary hidden vent structure helps to minimize cross contamination and extends pad life.

Welded Fabric Seam and Vent

Welded Polymer Seam

Akton® polymer tops have a soft multi-directional film that helps reduce shear effects for patient protection.

AORN 2023 Pressure Injury Prevention Guideline 3.3.1:

“ The researchers found that both the foam and gel mattress and the viscoelastic gel overlay were significantly more effective than the foam mattress in preventing skin changes and pressure injury, but the **viscoelastic gel overlay was the most effective surface for preventing pressure injury.**

Our Performance Series and Original Series table pads have a 3/8” of AKTON polymer built in, so you get a high density foam and overlay in a single pad.

Have questions about replacement pads for your operating room table?

Email customer service service@actionproducts.com or call 800.228.7763 or 301.797.1414

► Matching Armboards Available - see page 10

The Akton® polymer surface has a soft multi-directional film that helps reduce shear effects for patient protection.

Performance Plus Table Pad shown with other Action® Pads & Positioners

Best

Our Performance Plus Series table pads have three pressure reducing layers with an Akton® polymer surface.

- 1 3/8" layer of **Akton® polymer surface**
- 2 1/2" layer of **viscofoam**
- 3 **high-density foam** base

Performance Plus Series

Top-of-the-line series for pressure and shear management

Premium pressure and shear management benefits of our head-to-toe AKTON polymer surface. Great choice for extended cases.

AKTON Polymer with 360° multi-directional stretch film surface

Viscofoam

High-density Foam

Pressure Redistribution

- 3/8" head-to-toe layer of AKTON viscoelastic polymer surface provides immersion benefits by distributing weight
- Soft viscofoam mid-layer enhances patient envelopment and comfort
- High density foam base provides stability

Temperature Management

- AKTON polymer distributes heat to reduce "hot spots" that are catalysts for pressure injuries and can help reduce heat-related moisture build-up

Shear Management

- Exposed continuous layer of our proprietary AKTON polymer surface provides excellent shear benefits and will not support bacterial growth
- The soft, tissue equivalent polymer surface moves easily with the patient, reducing friction and shear forces

Pressure redistribution of a 3" Performance Plus Pad

► Find the Pad that works with your OR Table Model - see page 3

► Matching Armboards Available - see page 10

Fabric surface
Features a 4-way stretch fabric for increased durability.

Performance Table Pad shown with a Wilson Frame, and related Action® Pads & Positioners

Best

Our Performance Series table pads have three pressure reducing layers with a fabric surface.

- 1 3/8" layer of **Akton® polymer with fabric surface**
- 2 1/2" layer of **viscofoam**
- 3 **high-density foam base**

Performance Series

Head-to-toe pressure management, great for extended cases and high turnover OR's

Durable 4-way stretch fabric features bacteria/microbe resistant solution in fibers of the fabric.

4-way Stretch Fabric
AKTON Polymer
Viscofoam
High-density Foam

Pressure Redistribution

- 4-way stretch fabric cover compliments pad's ability to immerse the patient; reduces hammocking effect
- Encased 3/8" head-to-toe layer of AKTON viscoelastic polymer provides immersion benefits by distributing weight
- Soft viscofoam mid-layer enhances patient envelopment and comfort
- High density foam base provides stability

Moisture Management

- Vapour release fabric helps to maintain healthy microclimate

Shear Management

- 4-way stretch fabric provides shear management benefits

Pressure redistribution of a 3" Performance Pad

► Find the Pad that works with your OR Table Model - see page 3

► Matching Armboards Available - see page 10

The Akton® polymer surface has a soft multi-directional film that helps reduce shear effects for patient protection.

Better

Our Original Series has two pressure reducing layers with an Akton® polymer surface.

- 1 3/8" layer of **Akton® polymer surface**
- 2 **high-density foam base**

Original Series

Premium pressure and shear management benefits of our head-to-toe AKTON polymer surface.

AKTON Polymer with 360° multi-directional stretch film surface

High-density Foam

Pressure Redistribution

- 3/8" head-to-toe layer of AKTON viscoelastic polymer surface provides immersion benefits by distributing weight
- High density foam base provides stability

Temperature Management

- AKTON polymer distributes heat to reduce "hot spots" that are catalysts for pressure injuries and can help reduce heat-related moisture build-up

Shear Management

- Exposed continuous layer of our proprietary AKTON polymer surface provides excellent shear benefits and will not support bacterial growth
- The soft, tissue equivalent polymer surface moves easily with the patient; reducing friction and shear forces

Pressure redistribution of a 3" Original Pad

Fabric Surface
Features a 4-way stretch fabric for increased durability.

Original FT Table Pad shown with a Wilson Frame, and related Action® Pads & Positioners

Better

Our Original FT Series has two pressure reducing layers with a fabric surface.

- 1 3/8" layer of **Akton®** polymer with fabric surface
- 2 high-density foam base

Original FT Series

Durable, budget-friendly pressure management

Durable 4-way stretch fabric features bacteria/microbe resistant solution in fibers of the fabric.

Pressure Redistribution

- 4-way stretch fabric cover compliments pad's ability to immerse the patient; reduces hammocking effect
- Encased 3/8" head-to-toe layer of AKTON viscoelastic polymer provides immersion benefits by distributing weight
- High density foam base provides stability

Moisture Management

- Vapour release fabric helps to maintain healthy microclimate

Shear Management

- 4-way stretch fabric provides shear management benefits

Pressure redistribution of a 3" Original FT Pad

Angel Table Pad shown with our Full Length Overlay and other Action® Pads & Positioners

Good

This is a great budget friendly upgrade of the “basic foam” table pad. It was engineered specifically for the high turnover demands of the busy surgical suite.

- 1 viscofoam with fabric surface
- 2 high-density foam base

Adding an Action® Overlay for longer procedures makes this a very versatile pad

- see page 9

Angel Series

Our budget friendly upgrade of the “basic foam” pad

Replacement Pad for today’s fiscally sensitive healthcare facilities.

Perfect for:

- ASCs
- Higher turnover suites and procedures
- Comfort for non-anesthetized patient procedures

4-way Stretch Fabric

Viscofoam

High-density Foam

Pressure Redistribution

- 4-way stretch fabric cover compliments pad’s ability to immerse the patient; reduces hammocking effect
- Soft viscofoam layer enhances patient envelopment and comfort
- High density foam base provides stability

Moisture Management

- Vapour release fabric helps to maintain healthy microclimate

Shear Management

- 4-way stretch fabric provides shear management benefits

Combine with an Action® overlay for an improved shear management option for a wider range of patients; like those with fragile skin.

Pressure redistribution of a 3" Angel Pad

► Find the Pad that works with your OR Table Model - see page 3

► Matching Armboards Available - see page 10

Overlays

The Action® O.R. Overlay is a versatile polymer pad used for a wide range of procedures. Its shear reducing qualities combined with the ability to distribute heat and pressure make it a valuable pressure management tool. Used in longer procedures or for patients with fragile skin integrity, the overlay is an affordable upgrade for basic foam table pads that provides enhanced patient protection. The overlays are portable and can be exchanged between rooms as needed and are available in all standard OR table footprints in 1/2" thickness. Disposable covers are available for select overlay models.

40105	Small	20 x 20 x 1/2"	50.8 x 50.8 x 1.3 cm
40100	Medium	46 x 20 x 1/2"	117 x 50 x 1.3 cm

40104	3-piece Set	See A, B and C	
40104A	Head	9 x 20 x 1/2"	22.9 x 50.8 x 1.3 cm
40104B	Torso w/ perineal cutout	39 1/2 x 20 x 1/2"	100.3 x 50.8 x 1.3 cm
40104C	Foot w/ perineal cutout	20 x 20 x 1/2"	50.8 x 50.8 x 1.3 cm

AORN 2023 Guidelines, Pressure Injury Prevention
Selecting and Using Support Surfaces, section 3.2

“Position patients on surfaces that reduce the potential for PI by redistributing pressure and reducing the risk of unintended patient movement... Static surfaces such as viscoelastic polymer (i.e., gel) overlays are designed to reduce shearing and to support the patient's weight without becoming fully compressed under the weight of the patient's body.^{5,46,74} Gel overlays are radiolucent, latex-free, and reusable.⁷⁴

Disposable Overlay Covers

Action's waterproof, non-sterile Disposable Overlay Covers are made of a soft, flexible film and are available in two styles. Designed to help reduce exposure to fluids and to help extend the life of the overlay. The "fitted sheet" style features pockets at both ends of the pad and has a 4" film drape along the length of the overlay. The "pillowcase" style cover fully encases the overlay. This disposable cover will fit the 40100 and 40101 Overlay. *Purchase in cases of 25.*

Pillowcase style--full length overlay cover

Fitted Sheet style--torso with cut out

Fitted Sheet Style

40800	Made for overlay model 40100- torso overlay	Case of 25
40801	Made for overlay model 40101- full length pad	Case of 25
40803	Made for overlay model 40103- torso with cut out	Case of 25
40805	Made for small hip pad	Case of 25

Pillowcase Style

40102	Made for table pad models 40100 & 40101	Case of 25

Coordinating Armboard Pads

All Action® armboard pads are constructed the same as our table and stretcher pads with 4-way stretch fabric, midline seams, no-stitch construction and proprietary hidden vent systems. They are available in a variety of shapes and sizes, and include the hook and loop attachment, to meet your facility's pressure management needs.

Angel	64100	64600	67100	64300	64800	67300

Contoured Armboard Pads

These pads offer excellent full-arm coverage. Contoured design cradles patient's arm, protects bicep, elbows and forearms.

40307	Small	16 x 5 3/4 x 2 1/4"	41 x 14.6 x 5.7 cm
40310	Medium	20 x 5 3/4 x 2 1/4"	51 x 14.6 x 5.7 cm
40306	Large	24 x 5 3/4 x 2 1/4"	61 x 14.6 x 5.7 cm

Armboard Pads

For use on standard armboard table extensions to protect the patient's bicep, elbow and forearm areas.

40300	Short	15 x 4 x 1/4"	38 x 10.2 x .6 cm
40301	Long	24 x 4 x 3/8"	61 x 10.2 x 1 cm
40309	Wide Short	15 x 6 1/2 x 1/4"	38 x 16.5 x .6 cm
40308	Wide Long	24 x 6 1/2 x 3/8"	61 x 16.5 x 1 cm

Stabilizer Straps

The Stabilizer Strap secures and protects the arm.

40315	Short	25 x 2 x 1/4"	63.5 x 5 x .635 cm
40317	Long	36 x 2 x 1/4"	91.4 x 5 x .635 cm

Donut Head Pads

Designed to protect and cradle the patient's head, these pads afford easy access for surgical area of the head and neck. It can be used for a variety of procedures including ENT, plastic, general and ophthalmic.

40201	Adult	8 OD x 3 ID x 1 3/4"	20.5 OD x 7.5 ID x 4.5 cm
40201D	Adult w/ Center Dish	8 OD x 3 ID x 1 3/4"	20.5 OD x 7.5 ID x 4.5 cm
40218	Adult Wide	8 OD x 4 1/2 ID x 1 3/4"	20.5 OD x 11.4 ID x 4.5 cm

Ulnar Forearm Protector

Designed to be wrapped around the arm and secured with the Hook & Loop attachment as the patient's arm is tucked to their side.

40303	18 x 13 x 1/4"	46 x 33 x .6 cm
--------------	----------------	-----------------

Knee Crutch Pads

The Knee Crutch Pad is available in a variety of sizes to protect patient skin integrity.

40402	Small	11 x 9 x 3/8"	27.9 x 22.9 x 1 cm
40403	Medium	17 x 11 x 1/4"	43 x 27.9 x .6 cm
40404	Large	22 x 20 x 1/2"	56 x 50 x 1.3 cm

Patient Axillary Positioner

AORN encourages the use of Axillary Rolls in place of sandbags or IV bags.

These extremely versatile positioners are good for many procedures.

40602	Small	10 x 4 1/4 x 2"	25.4 x 11.4 x 5 cm
40605	Large	14 x 4 x 2"	35.5 x 10.2 x 5 cm
40615	Extra Long	18 x 4 x 2"	46 x 10 x 5 cm

Heel Support

Place patient's heel in cup cut-out. Slit in back of cup secures the patient's Achilles tendon area.

40502	6 x 3 1/4" x 1 3/4"	15 x 8.3 x 4.5 cm
--------------	---------------------	-------------------

Positioning Strap

Welded seams and waterproof film combined with a soft patient-facing polymer surface make this a must have for the operating room. Radiolucent and MRI safe. Hook and loop attachments secure the strap to standard tables. The longer strap was specifically designed for larger patients. *This strap is not meant to restrain patient.*

40713	57 x 4 x 1/4"	144.8 x 10.2 x .6 cm	Adjustable range: 28 x 43"	71.12 x 109.22 cm
40713L	90 x 4 x 1/4"	228.6 x 10.2 x .6 cm	Adjustable range: 59 1/2 x 79 1/2"	151.13 x 201.93 cm

Resurfacing Kits

Quick and easy resurfacing of minor cuts or abrasions on any Akton® polymer surface.

Watch our video on resurfacing your product.
<https://www.actionproducts.com/resources/downloads/videos.html>

KIT002	4 x 4"	10 x 10 cm
KIT003	36 x 4"	91.4 x 10 cm

From Pediatrics to Bariatrics, we have your safe patient positioning needs covered.

Action Products also manufactures and sells a full line of Patient positioners made with our proprietary Akton® polymer.

Product Warranty

Action Products warrants its standard line of Action® Operating Room Pads and Positioners for two years for defects in materials and workmanship at the time of purchase with the exception of products that are obsolete, misused, abused, altered, damaged, specialty or custom manufactured. Accessory and disposable items are warranted to be free of defective materials and workmanship at the time of initial purchase only.

General Terms

(Please note contracted terms may differ slightly) New accounts subject to credit approval. Standard credit terms are Net 30. We accept Visa®, MasterCard®, and American Express®. Standard domestic shipments are made by our preferred carrier, UPS, FOB Action Products, prepaid and added. Handling and drop-ship fees may apply. Specifications, prices, terms and availability subject to change without notice.

Product Returns

All product returns must be pre-authorized by a Customer Service Representative who will issue a unique RMA (Return Merchandise Authorization) number. Customer must supply order number and reason for return information. Returns are subject to a 20% restocking fee unless related to a manufacturing defect, product recall, product withdrawal, product correction or Customer Service error. Action Products will not accept order cancellations or returns of custom manufactured items.

The RMA number must accompany the returned item(s) and be clearly marked on the outside of the return shipping carton.
