- [Armboard Pads](#)
- [Arm/Hand Stabilizer Straps](#)

### Body Positioners

- [Chest Rolls](#)
- [Contoured Chest Rolls](#)
- [Chest Positioners](#)
- [Dome-Shaped Positioners](#)
- [Overlays](#)

## Advantages of our proprietary AKTON® viscoelastic polymer:

- Distributes Weight Evenly
- Distributes Heat Evenly
- Reusable & Cost Effective
- Tissue Equivalent
- Doesn't Support Bacterial Growth
- Latex, Silicone & Plasticizer Free
- Does Not Leak or Flow
- Easy to Clean
- Imaging Compatible
- and many more...

AKTON polymer looks and feels like a gel, but is more body friendly. It does not leak, flow or bottom out and is repairable!

The shear reducing qualities of the products are enhanced by the combination of the soft, flexible outer film and the tissue equivalent polymer.

### Procedures Include:

- Achilles Tendon Repair
- Hemorrhoidectomy
- Lumbar Laminectomy
- Posterior Varicose Vein Avulsion
- Suction Assisted Lipectomy of Buttocks
- Lipoma Excision
- Posterior Cervical Fusion
- Repair of Haglund's Deformity

All products made in the USA with our proprietary AKTON® polymer gel.
