For Immediate Release:

Action Products, Inc. donates operating room products to Globus Relief.

Hagerstown, MD, USA, February 10, 2011: Action Products, Inc. is proud to support the efforts of Globus Relief, a charity that distributes supplies to underprivileged medical facilities around the world. Action Products, Inc. had operating room and DME products acquired from the purchase of White Star Medical that could not be sold under the Action® brand. The total shipment valued over \$15,000. “We decided to donate this significant contribution to the global cause of preventing pressure ulcers in countries that could not afford these necessary products,” states Mistie Witt, president of Action Products, Inc.-Medical Products Group.

Globus Relief is currently working on major projects in Haiti, Nepal, Ghana and Nigeria. With huge warehouse facilities and 600 charity partners, they give impoverished acute care facilities exactly what they are looking for. They are a top-rated charity in Charity Navigator and will work until they have 100% saturation of goods to ship to institutions. “We are an effective conduit for supply chain to supply to hospitals around the world,” says Doug Beck, Director of Operations for Globus Relief.

About the Globus Relief:

Globus Relief gathers, processes, and distributes medical and other humanitarian supplies (including disaster relief) to charitable organizations serving people in need at home and abroad. For more information, please visit www.globusrelief.org.

About Action Products, Inc.:

Action Products, Inc. is the manufacturer of pressure relieving support surfaces to prevent pressure ulcers. As a pioneer of the reusable polymer gel pad and positioning category, Action® products have been engineered to address pressure and shear challenges. Action remains the leader in the industry due to its independent clinical studies proving its effectiveness, and its continuing support of pressure ulcer prevention education. For more information, please visit www.actionproducts.com.
